

## **ICD-10-CM 2010 TABULAR ADDENDA ERRATA**

**April 20, 2010**

Two issues with the tabular addenda are described below. In each case, part of a code title or section title appears to be missing. The text may still be read by a screen reader, and if the title is copied from Acrobat and pasted into another document, the missing text will be included. However, the text appears to be hidden and will not be visible to most people reading the document.

For section A80-A89, on the page labeled “2” (actually the third page), the current title is below.

### **Viral and prion (A80-A89)**

The corrected title for section A80-A89 is shown below.

### **Viral and prion infections of the central nervous system (A80-A89)**

For code C80.1, on the page labeled “14” (actually the fifteenth page), the current title is below.

#### **C80.1 Malignant (primary)**

The corrected title for code C80.1 is shown below.

#### **C80.1 Malignant (primary) neoplasm, unspecified**
